DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by Lloyd et al., EPO, 582, 484.

Lloyd et al. discloses in figures 7 and 8 a tungsten carbide (col. 3, lines 11-21) substrate (70) having a support ring (78) with a recess having a layer of abrasive material (88) therein, a protective layer (80) located in a shelf about the periphery of the substrate

Claims 1 and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Waldenstrom et al., EPO, 462,955.

Waldenstrom et al. discloses in figure 11 a substrate (1) having an inner ring encircling the solid center portion defining a recess having an abrasive material (3) therein and a shelf portion on the periphery having a protective layer (3) in the form of a ring.

Allowable Subject Matter

Claim 4 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
